

Good Morning Universe (Acoustic Version)

Toyah

(Willcox / Bogen) Good
Morning
Uni Good morning uni, how are you today?
Morning, morning uni, I'm feeling good today Come with me, come with me
Open up your minds and see
He intoxicates me on this neon world
Can take you far away
Good morning uni, how are you today?
Morning, morning uni, I'm feeling good today
Good morning uni, how are you today?
Morning, morning uni, I've been a long, long way I'm back from Mars
And my starship's a jungle (It's a jungle)
I'm hopelessly lost but I don't care
I'm crashing cymbals in outer space
For all the Aliens to hear I gotta find you in a chariot of fire
And I wanna touch you with fingertips of flames
Mind games
I wanna kiss you
I wanna kiss you again
Again
Good morning uni, how are you today?
Morning, morning uni, I'm feeling good today
Good morning uni, how are you today?
Morning, morning uni, I've been a long, long way
Good morning uni, how are you today?
Morning, morning uni, I'm feeling good today
Good morning uni, how are you today?
Morning, morning uni, I've been a long, long way...
