

# In This Moment

## The Birthday Massacre

When I was younger  
The days all seemed to last  
So much longer  
But that was once upon a time  
There was no one to remind us  
A shadow waits behind us  
To steal our breath away  
In this moment  
We pretend we're all that matters  
We're endless  
Do you think this is forever?  
Pretending  
Believing that this haven  
This moment is endless  
You run from your shadow  
And wait here in the dark  
For tomorrow  
As the days turn into nights  
When you're looking in the mirror  
You can't ignore your fear  
There's nothing on the other side  
In this moment  
We pretend we're all that matters  
We're endless  
Do you think this is forever?  
Pretending  
Believing that this haven  
This moment is endless  
In this moment  
We pretend we're all that matters  
We're endless  
Do you think this is forever?  
Pretending  
Believing that this haven  
This moment is endless
