

# At Ya' Own Risk (feat. Usher)

T.I.

Don't be bullshittin' with me  
I don't care if you got a boyfriend or not, girl  
It's at your own risk if you're kicking with me  
'Fore it be over you be spending the night, girl  
I can see, you look like you're ready to ride  
And girl obviously, it's mutual, you wanna give it to meRidin' off in Hollywood  
Kicking it with hotter bitches, all they get's a lot of wood  
Give it to 'em hardcore, all they do is holla good  
He be soft strokin', I lean in it follow through it  
She's so sexy, her complexion say she from Bollywood  
In my section, I wonder will a thousand dollar do it  
If not a fifty or a hundred, still I gotta do it  
You surely would, if you were me then for sure you could  
Get her and her partner at the Honda  
Have 'em both fuckin' and suckin' to maÃ±ana  
Heard nigga you with baby he don't want no problem  
If your man ain't a killer, what the fuck I care about him  
No comparison ain't nothin' rare about him  
Witness saying he was just standing there and then they shot him  
Trigger got no heart when that thing squeeze  
Or I'd catch a body to make you my main squeeze, yeahDon't be bullshittin' with me  
I don't care if you got a boyfriend or not, girl  
It's at your own risk if you're kicking with me  
'Fore it be over you be spending the night, girl  
I can see, you look like you're ready to ride  
And girl obviously, it's mutual, you wanna give it to meRaff triple black, Bentley matte white  
She said she don't like girls, she did that night  
They were taking turns, I was taking flights  
In competition man them bitches hit that pipe  
Going down on it  
If it ain't a bad bitch then I don't want it  
Ain't no mediocre  
Experiment with pretty bitches, that's the shit I told her  
As long as they got pretty toes and they ain't got a odour  
And showed her, how to stack paper to foldin'  
Colder than eskimo shoulders  
You strong with it, I don't play  
Tote .44 for the vultures  
Eat pussy Lord yes is she looking gorgeous

And you're just a lot of talk  
Them three got on the molly then the four of us we got it off  
And they ain't get paid like they playing college ball  
Go out receive a cock and balls  
Bullshit me, not at all Don't be bullshittin' with me  
I don't care if you got a boyfriend or not, girl  
It's at your own risk if you're kicking with me  
'Fore it be over you be spending the night, girl  
I can see, you look like you're ready to ride  
And girl obviously, it's mutual, you wanna give it to me Quit all the playing with me  
I know you got a nigga he just gon' be mad at me  
So if you love 'em, then it's special, don't come home with me  
'Cause when I get you to my crib you gon' belong to me  
I understand if you don't wanna go  
Just know what's gon' happen once we get through the door  
Promising you something you ain't never seen before  
Say you with me if you down I ain't tellin' nobody  
So tell me what you gon' do  
When you ready you can fall through  
You can bring a friend too  
Say you with me if you down I ain't tellin' nobody  
So tell me what you gon' do  
Yeah you can fall through  
You can bring your friend too
