

They've Been Watching Us

The Don Gilmore Band

A Artifacts far underground
Show them here
Theyâ€™ve many names in ancient books
From every land
Lights are glowing in the sky
Symbols in the field show a sign of times
Someoneâ€™s visiting, and
Theyâ€™ve been watching us

B Countless light years traveling from home
Showing us weâ€™ve never been alone
Yet still they are a mystery
Friend or foe itâ€™s time to see
Someoneâ€™s visiting, and
Theyâ€™ve been watching us

C Some say theyâ€™re from a different time
Or that the whole things in our minds
Itâ€™s time to put the end to secrecy
We need to know what theyâ€™re not telling us

D Some proclaim that
They have seen them face to face
Often scorned and subject to disgrace
Asserting flights in outer space
Revelations from an of an alien race
Someoneâ€™s visiting, and
Theyâ€™ve been watching us

E Repeat chorus

G Bridge

Rumbles in the sky and ground
When thereâ€™s not a thing around
Secrets of our history
Shrouded deep in mystery

H Repeat Chorus

I Tag
Theyâ€™ve been watching every one of us

J Spoken:

I think theyâ€™re watching us.
â€™Cause they know what we do.
Theyâ€™ve been here longer than us
And seem to think were ready
Maybe thatâ€™s why
They keep coming back
The things we could learn
If we decide were ready

K Yeah!!!
