

# Drive

Beth Hart

Headlight watching, sick of talking  
Shut your mouth and drive  
Feels like leaving, there aint no reason  
We can't still get highRoll down the window,  
unlock the door  
Don't care if you love me  
anymore  
anymoreBaby, just drive  
Just drive, cause baby tonight  
I don't wanna fight  
I just wanna watch you drive  
watch you drive  
Got you girlfriends letter  
She aint no better,  
but I'm the only woman tonight  
And I'm choking on the troubles  
so pass be the bottle  
Shut your mouth and driveRoll down the window,  
unlock the door  
Don't care if you love me  
anymore  
anymoreBaby, just drive  
Just drive, cause baby tonight  
I don't wanna fight  
I just wanna watch you drive  
watch you drive  
I can keep your secrets  
And I'll believe your lies  
Anything to keep you one more night  
It's all rightBaby just drive  
Just drive  
Baby, just drive  
Just drive, just driveI don't wanna fight  
'cause baby tonight  
I just wanna watch you drive  
watch you drive  
I just wanna watch you drive
