

Lead My Follow

Brother Cane

Shine a different light on a piece of me
Right before these eyes you delicately breathe
On this killing floor everything I see
Is living and hanging over meIt's alright in my mind when you lead my follow
Everything's alright every time when you lead my followYou play Jesus Christ to my Judas soul
After all this time the less I know
From this killing floor I feel it in my head
In time we are all ledRain can never fall too far, I'm drowning
Don't let me bring you down with me
