

# Come Back Before You're Not Dead

## Ratham Stone

### Verse

I was walking  
I don't know why but I was  
slowly shaking  
dirt off the palms of my hands  
how in the world this began  
fire was burning the sand

### Chorus

why do the lights go out  
nobody knows  
you took the interstate  
ill take the road  
a past full of lies  
in a blue eyed disguise  
and until the right words are said  
come back before you're not dead  
come back before you're not dead

### verse

hesitating  
waiting for man to sell out  
over money  
greed against love for a ring  
does the clot in your heart mean a thing  
cant we just set ourselves free

### chorus

why do the lights go out  
nobody know  
you took the interstate  
ill take the road  
a past full of lies  
in a blue eyed disguise  
and until the right words are said  
come back before you're not dead  
come back before you're not dead
