

You're About to Climb

The Collingsworth Family

Standing at the crossroads
Of faith and deepest fear
So afraid of failing if you move on from here
The road ahead is steep
But you're not giving up
'Cause God's about to take you to a brand new place of trust
Take a step of faith
It's time to move
Lay aside your fears
And watch what God will do
There's victory ahead
That mountains' not too high
Friend hold on, 'cause you're about to climb
Higher heights await beyond what you have dreamed
And they're yours for the taking if you dare to believe
So leave your doubts behind
And let God make you brave
Cause He has gone before you and He's already made a way
Take a step of faith
It's time to move
Lay aside your fears
And watch what God will do
There's victory ahead
That mountain's not too high
Friend hold on 'cause you're about to climb
You may feel you can't go on
It just seems too hard
But put your hand in His
He will take you to the stars
Take a step of faith
It's time to move
Lay aside your fears
And watch what God will do
There's victory ahead
That mountain's not too high
Friend hold on
'Cause you're about to climb
There's victory ahead
That mountain's not too high
Friend hold on
'Cause you're about to climb
To climb
