Shine Down

Godsmack

So tired sleeping through the day
Bloodshot eyes and sweat from my body
And I picked my head up yesterday
Found the reason of hope left inside of meBut I still believe in immortal love
And I know there's someone aboveShine down, don't take it away from me, no
And I know, you know how, yeah
And shine down, just give me a chance to feel it
It's taken forever to get me off the groundHaunted silence overwhelming me
Deny takes its toll on my sanity
And I know I've been away too long
All these years I've been hiding
I'm feeling I'm coming strongBut I still believe in immortal love
And I know there's someone that's up above
Show me a path to find my way
And give me a reason to prayWell, shine down, don't take it away from me, no
And I know, you know how, yeah
Shine down, just give me a chance to feel it
It's taken forever to get me off the groundShine down, don't take it away from me, no
And I know you know how, yeah
And shine down, just give me a chance to feel it
It's taken forever to get me off the ground, yeahAnd shine down, don't take it away from me, no
And I know you know how, yeah
And shine down, just give me a chance to feel it
It's taken forever to get me off the groundShine down, shine down, oh, shine down
Oh baby, yeah, yeah, yeah
Shine down, oh, shine down, oh, shine down
Oh baby shine down
