Burnt Sugar

Felicity

Always had a sweet tooth
Never could avoid it
So baby you're my weakness
And your just my type
When you said forever
Sounded like you meant it
Caramel intention
But you're just all hype

We were sticky sweet
Good enough to eat
Thought you'd stick around
When the season changed
Didn't taste the same
Came crashing down

Oh I can't get the taste out my mouth
Cause your lips taste like burnt sugar now
What kind of flame came and burned down the house
Cause those lips taste like burnt sugar now
Whoa~ Whoa~

We were always headed, headed some place bitter
In the wrong direction and it took one bite

We were sticky sweet
Good enough to eat
Thought you'd stick around
When the season changed
Didn't taste the same
Came crashing down

Oh I can't ge the taste out my mouth
Cause your lips taste like burnt sugar now
What kind of flame came and burned down the house
Cause those lips taste like burnt sugar now
Whoa~ Whoa~ Whoa~ Whoa~

Bitter, salty, sugar, sweet
Should've seen what's underneath

Everything behind your candy shell
Come on and taste your medecine
A tablespoon of cinnamon
Tell me how that fells upon your tongue

Oh I can't get the taste out my mouth
Cause your lips taste like burnt sugar now
What kind of flame came and burned down the house
Cause those lips taste like burnt sugar now
Whoa~ Whoa~ Whoa~ Whoa~
