

# ILLusions

## Kid Cudi

These illusions in my hair  
(I never wanna leave)  
Hallucinating flying through air, all so long  
To the demons in my hair  
(No more misery)  
Hallucinating, flying through air, all so long Free, free  
And I got it, and I got it, and I got it  
And I got it, and I got it, and I got it yea  
And I got it, and I got it, and I got it  
And I got it, and I got it, and I got it yea I was about thirteen (let's go)  
The darkness had me diseased  
A young warrior on my own (own)  
I chose to take control  
They say the light keeps the evil at bay  
As it goes right through my mind  
And this beauty is all I can see  
Lotta shit making sense lately could it be These illusions in my hair  
(I never wanna leave)  
Hallucinating flying through air, all so long  
To the demons in my hair  
(No more misery)  
Hallucinating, flying through air, all so long Free, free  
More more more more more  
Around the age of 23  
Is when I finally heard the frequency  
And I've been deep in the line of grease  
Livin' an electric dream  
Trippin' in the warmth of the love all around me  
I'm trippin' in the warmth of the sun These illusions in my hair  
(I never wanna leave)  
Hallucinating flying through air, all so long  
To the demons in my hair  
(No more misery)  
Hallucinating, flying through air, all so long Free, free  
And I got it, and I got it, and I got it  
And I got it, and I got it, and I got it yea  
And I got it, and I got it, and I got it  
And I got it, and I got it, and I got it yea  
Fly, fly, fly, fly, fly, fly, fly (up, up) fly These illusions in my hair

(I never wanna leave)  
Hallucinating flying through air, all so long  
To the demons in my hair  
(No more misery)  
Hallucinating, flying through air, all so long, free, free
