

So, What Would I Do?

Joe Bonamassa

Intro -----Verse:

Home for a day,
Six more nights, baby...
When i go on the road, Ya feel my presence...
been a shame babe...

All i need, Is a true, Inner faith...
that true love brings...Verse:

Bless your soul for loving me...

In my false, Including...

Oh i know, Your the rock...

That keeps me grounded...

I know it can't be, A long...winding road... You know i love you so...Verse:

All i have, Is you...all my mine..

Your all that's left for...me...in my life...

Cause' i wanna know...

You seep, And laugh with me...

Cause' i will survive...As long as time will wait...Chorus:

So what would i do...

Just sit and suffer baby...

So what would i do....

I could go on, Without you darling...Oh i don't know...Guitar Solo -----Verse:

I wanna know, You seep, and laugh with me...

I'll survive, As long as time will wait...Ending Chorus:

So what would i do...

Just sit and suffer babe...

So what would i do....

I could go on, Without you darling....

Oh i don't know..Ending -----
