

# The Little Things

Toni Braxton

You don't have to buy me all the gold there is in Rome  
Don't have to surprise me with the most expensive home  
Don't have to travel round the world for me at all  
Baby, the way you smile at me is self explainable Oh baby baby baby, I don't want much  
Just say you love me now and then  
And mean it is more than enough It's just the little thing, the simple little things, babe  
I know it may sound funny but sometimes they mean so much to me  
Makes me feel secure and puts my soul at ease  
Baby the little things are things that matter to me  
Hey, ooh babe, oh yeah baby, yeah darling Oh you don't have to be a movie star on the TV, no baby  
Don't have to be a knight in shining armor to rescue me, no  
Don't have to promise me the moon and stars above, darling  
Just keep sure your there for me it keeps me in love Oh baby baby baby, I don't want much  
Ooh just say you love me now and then  
And mean it is more than enough It just the little things, the simple little things, baby  
I know it may sound funny but sometimes they mean so much to me  
Makes me feel secure and puts my mind at ease  
Baby the little things are things that matter to me Don't have, to go out of your way baby  
Just say, that love, will always stay darling  
Oh baby, I don't, don't really want much  
'Cause if you really love me baby hey that's more than enough Its just the little things, the simple little things,  
babe  
I know it may sound funny but sometimes they mean so much to me  
Makes me feel secure and puts my mind at ease  
Baby the little things are things that matters (Little things are things that matters)  
Things that matter  
A little things are things that matter to me, hey, ow
