

# Listen to Your Heart

## Sistars

Listen to your hart and find yourself a friend  
Make your spirit shine and do the best you can

When you speak, you breathe

You climb a tree

Be aware of a one special moment.

When you wake, you sleep

Meditation is good thing

To create something big and discover.

When you care, you love

Put yourself into both

Keep your face to the sky never worry.

When you work, you play

Concentrate find your way

To complete your mission in the Glory.

Listen to your hart and find yourself a friend

Make your spirit shine and do the best you can

When you drive, you cook

Even while reading a book

Always calm stay focused on the issue.

When we make good love

Try to stay here with your thoughts

Follow me my Dear I am with you.

Pay attention to your heart

Hear a friend that tells you how

Change your life, make it Art with your spirit

Cause the soul you got needs now time to get out.

Listen to your hart and find yourself a friend

Make your spirit shine and do the best you can
