

Cardiac Arrest

Bad Suns

I've been trying to keep my grip, yeah I think I'm over this

I can hear it now, oh no

Yeah, my tongue, I'll let it slip. Why'd I do those things I did?

I can taste it now, oh no I'll try my best. How much do I invest?

Like cardiac arrest, high voltage in her lips

I'll try my best. How much do I invest?

Like cardiac arrest, high voltage when we kiss My innards turn, your eyes, they roll. I'll be there to take the fall

I can feel it now, oh no

Same old story since day one, but I've got no place to run

I can see it now, oh no I'll try my best. How much do I invest?

Like cardiac arrest, high voltage in her lips

I'll try my best. How much do I invest?

Like cardiac arrest, high voltage when we kiss High voltage in her lips, they catch me when I slip
