Careful

Sebadoh

Drop your guard, I'll get to know you
Simon says it's time to move
And God only knows I think about you'Cuz it's never time to show and prove
It's never time to show and proveHiding all the time destroys me
Never know what's right to do
I only needed to feel a balanceI just want to do right by you
Sitting safe beside the truth
Beside youWatch out for my bullshit
Everybody's got it
Careful as a soldier we're so strongBegging my new teacher
Thought you'd never reach her
She's standing there in front of youIt's twice as hard to fool us
It's twice as hard to fool us
Careful as a soldier we're so strong
Careful as a soldier we're so strong
