# When The Breeders Were Big

## American Hi-fi

Do you remember when the radio would play our favorite songs
and we would sing along, got some records of 'Super Chunk And Hum'.
Knew it all along. We never get along.
I gotta try get you off mind but it never works every other time,
I heard canon ball it brings me back to you on my stereo.
Let cross some 'Sonic Youth'
To back the sound and what we dig,
make it like when 'The Breeders' were big,
everyone would sing along, sing along our favorite songs
I got a picture of a photograph of you,
riding in my car playing 'Big Star'
it's never growing old blasted mellow cold.
Knew it all along we love the 'Sweater Song'
To back the sound and what we dig,

make it like when 'The Breeders' were big,
everyone would sing along, sing along our favorite songs
To back the sound and what we dig,
make it like when 'The Breeders' were big,
everyone would sing along, sing along our favorite songs
To back the sound and what we dig,
make it like when 'The Breeders' were big,
everyone would sing along, sing along our favorite songs...
Sing along
Sing along
Sing along
Sing along...
