Last Time

Black Dub

Oh, it may be the last time you hear me moanThis may be my last time
This may be my last time
This may be my last time
It may be the last time, I don't knowI've been asking what it is
To have faith in what will come
It may be the last time you hear me moan
It may be the last time, I don't knowThis may be my last time
This may be my last time
This may be my last time
It may be the last time, I don't knowIt may be the last time you hear me moanThis may be my last time
This may be my last time
This may be my last time
It may be the last time, I don't knowI've been walking the secret
But now it's time to unfold
Oh, it may be the last time you hear me cry
It may be the last time, I don't knowThis may be my last time
This may be my last time
This may be my last time
It may be the last time, I don't know
