Stand Alone

Spoken

(Chorus)
Rise ,rise above the power chain
My name alone
Bargain and the fire appear
We're the patients and the crowd(Pre-Chorus)
I stand alone in the fire
I stand alone in the fire(Chorus)
I stand alone before the fire
A past that's been chasing me
And so I face the flame now
I'm screaming out
I beg you to hear my voice
But I stand alone(Verse)
Screaming from the fire
Burning in the flames
Hope is my desire
Now turn your face to me(Pre-Chorus)
I stand alone in the fire
I stand alone in the fire(Chorus)
I stand alone before the fire
A past that's been chasing me
And so I face the flame now
I'm screaming out
I beg you to hear my voice
But I stand alone(Bridge)
I am not alone
I am not alone
I am not alone
I am not alone(Chorus)
I stand alone before the fire
A past that's been chasing me
And so I face the flame now
I'm screaming out
I beg you to hear my voice
But I stand alone(Verse)
Screaming from the fire
Burning in the flames
Hope is my desire
Now turn your face to me
