

Here it Comes

Ramrods

This is a call a call to all
It goes out to those who've been there
And I should know because I've been
 Maybe once a week on Mondays
 You should have seen what I've seen
She doubles up and comes back Sundays
 And she will come into your heart
 It goes on and on and on
 Here it comes
 Here comes my days in the sun
 Here it comes
 Here comes my time in the sun
 This is the day, this is the time
 To stare at the skies in wonder
 We live a lie, you'll never find
 Never in a month of Sundays
 You should have seen what I've seen
He doubles up and comes back Mondays
 And he will come into your heart
 It goes on and on and on
 Here it comes
 Here comes my days in the sun
 Here it comes
 Here comes my time in the sun
 And you don't know how it feels
 Here it comes
 Here comes my time in the sun
 Here it comes
 Here comes my days in the sun
 Here it comes
 Here comes my time in the sun
 And you don't know how it feels
 Here it comes
 Here comes my time in the sun
