

# If It Ain't Me

**Hollis Brown**

Sometimes baby, don't you find that the best of things in  
life they fly. How come they leave? I just hope that you  
find all the things you want to have in life, even if it  
ain't me. If it ain't me. You know it ain't you. what must  
it be? It must be the truth. Sweet baby, lady day, I hear the thundering I guess our  
clouds are grey. What can I say? I still need you? I still  
care? I still remember the way you wore your hair? The  
way you would stare. If it ain't me. You know it ain't you,  
what must it be? It must be the truth. That we're through.
