

Summertime (feat. Latir)

[Aaron London](#)

Summer's finally here
Time to kick back and relax
Winter blues is old news
Nostalgia is in the air
Misbehaving clouds of grey
Don't you dare come out today "I wanna see your face turn "
Father said with such delight
We're wild and we're reckless
We'll never forget this
Time we spend carelessly wondering the streets
We're wild and we're reckless
We'll never forget this
Time we spend to satisfy our youth Just youth
Just some juvenile youth
Just some juvenile youth
Just some juvenile youth
Just youth
Just some juvenile youth
Just some juvenile youth
Just some juvenile youth we'll stay juvenile forever
we'll stay juvenile forever
we'll stay juvenile forever
