

# Pirate Song

[Kenny Chesney](#)

I wish I was a pirate shipwreck down in Mexico  
Where the oceans turn to silver and the beaches turn to gold  
I'd make love to some senorita in that town  
I'd get on my boat and I'd sail the ocean round  
I wish I was a pirate out there under my own flag  
Running for no reason and no reason to turn back  
The salt and rum on my tongue, sails tattered and torn  
Laughing in the devil's face, riding out the storm  
Ooh, one of these days  
Gonna get off of this highway  
Wake up in Sun Bay  
With the sunshine on my face  
Saint Christopher on a silver chain  
Say a prayer and sail away  
Ooh, one of these days  
Gonna get off of this highway  
Wake up in Sun Bay  
With the sunshine on my face  
Saint Christopher on a silver chain  
Say a prayer and sail away  
I wish I was pirate on some gold ship in the night  
With nothing but the stars, the moon and faith to be my guise  
Steady as she goes with my back to the wind  
Let a cloud of cannon smoke, I disappear again
