Fucked Up

Camp Howard

Try to ascertain
In this wild state of mind
Don't recall your name
Though you've been so very kind
I need to be alone

And I'm so paranoid
I don't trust your smiling face
I'm too tired for sex
Can't get out with no escape
I need to be alone
I need to be alone

Don't get me started
I'm fucked up
I've departed

Need to brush my teeth
But I think I'll just play chess
One more drink to black out
One more cardiac arrest
I need to be alone

And they won't see us coming
From their favourite promised land
We will end their camping
With a knife clutched in our hands
I need to be alone
I need to be alone

Don't get me started
I'm fucked up
I've departed (x3)
