

# Welcome To My Hell

## Death SS

Welcome to my hell  
welcome to the spell  
Cadavers, monsters and witches as well  
all together in my hell  
ring for you Satan's bell  
this is the end can't you tell.Welcome here tonight  
in this place you have to fight  
When some devils turn on the light  
you will see this evil sight.Welcome to my sin  
nothing to lose, nothing to win  
there's no pleasure, see what I mean  
like a nightmare it will seem  
your soul will fight and your mind will dream  
you'll be weak as you've never been.Welcome to the reign of blood  
as you enter start to shout  
and your scream will be so loud  
when you find there's no way out.
