

# The Brain Scramblers

## Revocation

Arthropod vector  
With genetics rearranged.  
Viral cell culture.  
Effects a chromosomal change.  
Pathological swarm,  
Infestation on a massive scale,  
The brain's flesh is torn  
Implantation of the larval cells.Neurotoxin. Scrambles brains.  
Eternal stream of screams deranged.  
Driven to a shrieking rage.  
Once infected, none shall be saved.  
Wriggling pupation.  
Writhing spawn are burrowing.  
Neural transformation  
Ceaseless shrieks bloodcurdling.  
Terrorist conspiracy.  
A hideous plot with twisted aims.  
An act of insurgency  
A scourge of screaming unrestrained.Neurotoxin. Scrambles brains.  
Eternal stream of screams deranged.  
Driven to a shrieking rage.  
Once infected, none shall be saved.  
Riots.  
Violence.  
Chaos.  
Toxic torment.
