Just the Same

Prong

The retreads on the go, thought it was a hoax
But looked around and saw it ready to again explode
When will it go away? Too bad it's here to stay
Recycled, new improved, jump on it, get safeThey like it shallow, they like it fake
They like it borrowed, like it narrow, like their brain
They're gonna swallow just the sameUnder the guise of late, for those born too late
A concept benefacting a culture in a needy state
So, what if it's been used as long as no one sues?
Just rehash and trash it for the fools to use, get safeThey like it shallow, they like it fake
Like it borrowed, like it narrow, like their brain
They're gonna swallow just the same, just the sameGenres over sold, sampled and stole
Rediscovered themes so poorly over told
(Get safe)
The wagons on the road, worn out thought abode
Tired style lost now finds a new home
(Get safe)The retreads on the go, thought it was a hoax
But looked around and saw it ready to again explode
(Get safe)
When will it go away? Too bad it's here to stay
Recycled, new improved, jump on it, get safe
