I Was Gold

Natalie Lurie

Lady hold me close
So I wouldnâ€™t freeze
Were just afraid that I would leave but

I didnâ€™t love you like you loved me
I didnâ€™t love you like you loved me

You dressed it up in roses and called it love
Lived it who you are would never be enough

I didnâ€™t love you like you loved me
I didnâ€™t love you like you loved me

I was gold I was gold I was gold
I was gold I was gold I was gold

You try to control everything that you could hold
I was gold I was gold I was gold

In night itâ€™s hard so hard to see
All the reasons why I had to leave
But

I didnâ€™t love you like you loved me
I didnâ€™t love you like you loved me

I was gold I was gold I was gold Yeah
I was gold I was gold I was gold

You try to control everything that you could hold
I was gold I was gold I was gold

And I wanted someone to hold me
But in your eyes I only felt Iâ€™m lonely
And I wanted someone to hold me
But in your eyes I only felt Iâ€™m lonely

I was gold I was gold I was gold

I was gold I was gold I was gold

You try to control everything that you could hold
I was gold I was gold I was gold
