

Wasted Again

Thomas Samuel Orr

I'd rather get high than go to school But my parents and my teachers say it wouldn't be cool Lately this world has been bringing me down I need to find something that'll bring me around So I smoked me a doobie 'till it was gone Then what do you know? It led to another then to another Well here I go Looks like I'm wasted again Looks like I'm wasted again I went to a party at a good friend's home There was lots of booze so I thought I'd have some Good looking chicks there I tell you no lies Talking and drinking had to socialize I had me a whiskey then it was gone Well what do you know? It led to another then to another Well here I go Looks like I'm wasted again Looks like I'm wasted again
