

# Come On Home to Me

Tracey Thorn

A bird can fly\*  
On just one wing  
But then why should he?  
Oh where there's sky  
There must be rain  
And where there's you,  
There's me  
So do it all  
Get it done  
Be all there is to be  
And wrap yourself  
In something warm  
And come on,  
Come on  
Come on home  
To me  
Love can die  
And we'll never know  
What it might have been  
And then you and I  
Will never know  
Until we try again  
So see it all  
Get it done  
See all there is to see  
And wrap yourself  
In something warm  
And come on,  
Come on  
Come on home  
To me
