

# Black Cab

## Anders Westerlund

Oh no, Goddamn  
I missed the last tram  
I killed a party again  
Goddamn, Goddamn  
I wanna sleep in my bed  
I wanna clean up my head  
Don't wanna look this dead  
Don't wanna feel this dreadI killed a party again  
I ruined it for my friends  
Well you're so silent Jens  
Well maybe I am, maybe I amNow at the central station  
No time for being patient  
I feel like going home  
But at the same time I don'tBlack cab, black cab  
Black cab, black cab  
Black cab, black cab  
Black cab, black cabAnd I've heard all the stories  
'bout the black cabs and the way they drive  
But if you take a ride with them  
You may not come back aliveThey might be psycho killers  
But tonight I really don't care  
So I say turn up the music  
Take me home or take me anywhereBlack cab, black cab  
Black cab, black cabYou don't know anything  
So don't ask me questions  
You don't know anything  
So please don't ask me any questions  
You don't know anything  
So don't ask me questions  
Just turn the music up  
And keep your mouth shutBlack cab, black cab  
Black cab, black cab
