I'm in love, though we never met
Looking for clues, i search the netDear PX, I'm waiting for your name
Check every hour, to no avail
Been up all night, couldn't get to sleep
No way out, I'm in too deepDear PX, It's been 11 days
I'm kind of lost within the maze
Are you there? Give me but a sign
Are you at home? Are you on-line?[Phideaux Xavier]:
Dear Simone, I'm sorry for the wait
I've seen your pics, you're looking great
I'm all alone, dying for a date
I think we match, it must be fate
