

# Always Comes Around

## Seven Day Jesus

Somehow it always comes around  
To be the best for you the best for me  
And then we'll see the beauty of it all again, again  
You stay up all night long  
And you wrestle with yourself  
But it only leaves you tired  
Then you see the mess you've made  
You try to trade the things you know  
What you believe, for this control  
It's too bad, your will don't roll  
Because you're standing in the way  
Somehow it always comes around  
To be the best for you the best for me  
And then we'll see the beauty of it all again, again  
Take your money, take your time  
And throw it all up in the sky  
Give it up, let it go  
It's only standing in the way  
Somehow it always comes around  
To be the best for you the best for me  
And then we'll see the beauty of it all  
Somehow it always comes around  
To be the best for you the best for me  
And then we'll see the beauty of it all again  
You gotta throw your switch on  
The autopilot function  
You won't be in the way  
Somehow it always comes around  
To be the best for you the best for me  
And then we'll see the beauty of it all  
Somehow it always comes around  
To be the best for you the best for me  
And then we'll see the beauty of it all again  
Somehow it always comes around  
Always comes around  
You know it always comes around  
Somehow it always comes around
