

Back Against the Wall

PUP

Y'all motherfuckers don't want to do none
Y'all motherfuckers don't want to do none
In the light never see a nigga like me, things collide inside
 Open your eyes wide and see
 Don't want none of G A D E and Conflict
 Load 'em up and bust a (unverified)
 Vietnam, we droppin' bomb shit, strapped do draw
 Ready to brawl, back against the wall, us against all y'all
 I'm ready to brawl at all times
 Don't give a fuck who I'm up against
 As long as I can take everyone in my circle
 If you really wanna know, nigga most personal
 My reason for treason is bread,
 So even when I said I love my gauge
 Watch the rage that I pull, finna' unleash this cage
 I'm comin' out with full intentions
 Be takin' these niggas to other levels
 Bringing drama like physco, going through cycles
 Every trip that I take be suicidal living like Waco
So I'm down to ride, down to do whatever, whenever, the weather
 Look I could not really care on another page
 Through the blaze I'm 'a get at 'em
 Nasty, come and get mashed
 You wanna up gats, you'd better be strapped
 Ain't got time to change 'em my my mind is finally made up
 Thinking just fuck 'em all up
Pop with the glock on spot, if it's hot, I got a two-shotter pump
 Just to get a nigga bumped and put up in the trunk
 If you wanna get tough enough, you get bucked, blast
 Put him on down and out, wildin' out done got you shot
 Should have been down to put a rock in your sock
 But your sock got a whole and I'm on cocked
 Back with the sack in the rodeo pack
Get back, I make a nigga get slapped in the face with the gate
 I'ma let the cult demonstrate
The conflict gettin' crucial when the raw be killing 'em
 Come thirsty nigga, punks be denied
 Ready to ride, willing to die, feeling me now
 Nigga get the right act in your mind

Nigga get the acts back in a row right
Act that jaw to the right axe saw
Ain't no thang bigger and I'm a' back 'em all
Temptations trump tall, upskirts
Let 'em deal with the hurt, quick fast ways
Take that motherfucker, it's Wildstyle
Take your weak ass niggas along, fuck Bone
Dissin' my home, sayin' we clone
If your ass want to battle, boy, I'll take it to the chrome
That's right, my city gonna ride with the Flic', die with the Flic'
What you wanna get on, what's up?
Cut the bullshit, get 'em with the bidness
There's gang banging in my blood, no love
Get slugged, body drug through the mud, bring it on let's thug
'Cause we comin', straight young gunnin', catching niggas running
Y'all motherfuckers don't want to do none
Bone killer, killer to the bone, I got that home address
Y'all niggas better leave it alone, this Raw Dope life or death
Any time or place let's go, down for the cause, strapped to draw
Ready to brawl, back against the wall, us against all
Y'all motherfuckers don't want to do none
Any time or place let's go, down for the cause, strapped to draw
Ready to brawl, back against the wall, us against all
Y'all motherfuckers don't want to do none
Let's get bucked till this bitch catch fire
Look a' here, we the rodeo riders, crucial colliders, crucial killers
(Unverified) fighters, wild west-siders
You can't have the truth, the truth like liars
It's on tonight, so know
We having fun making highways on your crossroads, overload
The fuck E coming back in the form of the Messiah, tight like pliers
Cutting perfect wires, hide like Mayans
The reason they singing the blues is
'Cause these niggas need to retire more of a musical wiser
So I advise you to get up and be done
Give me the bone, those motherfucking niggas really don't want none
Pop for the wild-wild, feel the buck, cook 'em up pow-pow
Give it up for the Chi town, nigga watch out, get knocked out the box
Roll with the top-notch heat pop pop
For the plot and we dropping 'em
Unstoppable, cocking 'em, leaving 'em dead
When they lay in the land of the raw
Nigga what you seen, what you saw
The nigga for deuce stack 'em all
Bringing the C O N Flict team from R E N E G A D E's

Got four others now and take everything you own
Now as serious as I am, why am I so serious now
'Cause it's been no time for games playing around wastin' your life
 Quit talking crap and pullin'
 Pussy gonna get you killed if you don't use it
Got go-getters, plenty missiles, stop 'em, drop 'em and I'm wishing
 Who that fucking with your eyes
Got you blind to the fact that it's us against all, back to the wall
 Violent lessons jumping off unless you all to the raw
 It's the bull and the rope and I'm making you choke
 Travel the world with us people and folk
 Tell us go watch everywhere that we go
 But we still keeping it dope yo'
 Niggas just bark for some Kibbles and Bits
 Niggas don't know about this lyrical shit
 Life or death, Renegades, Realer and Flic'
 Coming through your town and killing your clique
I'm a hit a nigga up so truly gooly, he wouldn't understand it
 Recognize me in this shit as a chief I said
 And run up to me with your shit, go on and do it
 'Cause I would fuck this motherfucking status shit
 I'm bringing the goods and tempting their manhoods
 To think they could even fuck with me
Call me Coldhard (unverified), busting shit from 'cross the street nigga
 Throw all my cards to box with 'em
 Cars are still deep but your sound was still illing
What the fuck, you niggas think I'm chilling, 'cause I'm calmed and cool
 So perhaps I'll bust on one of you stupid ass niggas for being a fool
 Stroll through, I'm heated
 Them gats combusting rapid at your whole crew
 Get called for disaster, 'cause we strapped and let the dogs loose
 Hit the main man with the deuce for the high tech shit fucked up
 With Flic' now its on with you, you scared, out your in bed
 Sissy ass nigga we really ain't done shooting the lead
 Split your cabbage to the red for fucking with us
 Now we sick in the head nigga
 By all means, it really don't stop, stay out the dark
 Keep messing, get marked
 Face to face, I'm 'a check them phonies
 That don't want none trying to diss my homies
 Roll and rocker creeping through your city
 Bone crusher when I slap you silly
 Bone rusher when my mac milli
 Catch a toe tag for touching my billi
 Who the fuck want some drama

I'm a' slice 'em up, dice 'em up
I'm 'a cut their head off then neck
I'm feel like I spent twenty years down in Tibet
Rumbles, give me red ass knuckles
Knuckles hit his eye like buckles
Buckles keep 'em spit like Ruffles
Fuck it, like a must we buck it
