I Want You

Filur

Baby, stop
Where're you standing
I need to talk to you
Last night was really crazy
And I wanna make it up to you
And I, I didn't realize
That I meant anything to you
But now, that I know your feelings
I need to get it through to you

[Chorus]
Don't misunderstand me
Cause I want you
I see you on the floor
Baby, I want You
Don't misunderstand me
Cause I want you
I want you to want me too
Like I want you

Tell me girl
Where do we go from here
Ive been thinking about you
And I see you everywhere
And I, I'd be really surprised
If I got to see you in the new morning
I swear the feeling I get from you
Makes it so damn hard to forget about the things
You do
And you, you seem think is cool
To walk away from me, to misunderstand me

[Chorus]
C-part:
Let me dance with you baby,
Wont you be my lady
..Wont you be mine

(chorus)
