It'll Never Leave You Alone

Crash Test Dummies

I think I'll have just one
Well, maybe just another one
Of course the third ones so much funIt'll never leave you alone
And if you try and tell it to go
You'll just turn around
And bring it right back homeI think I'll have a puff
One should be enough
It shouldnt have to be that toughAnd it'll never leave you alone
And if you try and tell it to go
Youll just turn around
And bring it right back homeI think it's time for a sniff
Just a little teensy whiff
My head is howling
And my bones are stiffSo would you like a hit?
Just a little teensy weensy bit?
I think you're gonna like itAnd it'll never leave you alone
And if you try and tell it to go
Youll just turn around
And bring it right back home
