Sleep on It

Paul Carrack

Girl I've been missing this
You made it very clear
That I've done something wrong
I'm just not sure what it might have beenEvery second we spend
Just going around and around again
Will it make a difference
Or am I somewhere in the darkYou know I wanna make it right
Willing to talk if it takes all night
Maybe it's better if we try
To settle down in a leaded lieWhy don't we sleep on it
Everything will be alright
Girl I don't wanna fight
Why don't we sleep on it tonightWhy don't we sleep on it
Cuddle up and make it right
Why don't you dim the light
And we'll just sleep on it tonightI know it's down to me
It's my responsibility
I just want your happiness
If I've done wrong, then I confessBut there's nothing lost
And I would never count the cost
Tomorrow's another day
I think we've said all we can sayWhy don't we sleep on it
I don't really wanna fight
Why don't we dim the light
And just sleep on it tonightWhy don't we sleep on it
Cuddle up and make it right
Everything will be alright
If we sleep on it tonightNo matter what you think about me
I'll still be here when the morning comes
Oh, yes I willWhy don't we sleep on it
Baby I don't want to fight
Why don't you dim the light
Can we just sleep on it tonight
