

# Holy Man

[Lita Ford](#)

Lead me into temptation  
Save me with your healing hands  
Show me the fires of creation  
Baby, be my Holy manFlames in the garden of Eden  
Heaven in pieces at my feet  
I faced the raging ruinOf a million sleepless nights  
I need to rest my weary head  
On your resurrection bedStorms across the horizon  
Whirlwind tuggin' at my sleeve  
Just when my heart was turningTo an icy shade of blue  
You came into the night, held me so close  
How the hell ya found me God only knowsLead me into temptation  
Save me with your healing hands  
Show me the fires of creation  
Baby, be my holy manLies in the valley of evil  
Like shadows fallin' 'cross my eyes  
When there's no sanctuaryYou came and turned the storms away  
You made the darkest night in my life  
Into Judgement DayLead me into temptation  
Save me with your healing hands  
Show me the fires of creation  
Baby, be my holy manI see forever in your eyes  
For your love  
I would make any sacrifice, yeahLead me into temptation  
Save me with your healing hands  
Show me the fires of creation  
Baby, be my holy manLead me into temptation  
Save me with your healing hands  
Show me the fires of creation  
Baby, be my holy manLead me into temptation  
Save me with your healing hands  
Show me the fires of creation  
Baby, be my holy manLead me into temptation  
Save me with your healing hands  
Show me the fires of creation  
Baby, be my holy man  
Baby, be my holy man
