

Danger Zone

Black Sabbath

Midnight, something don't feel right
It's been too much, too far away from home
Hard life, living the hard life
I can't resist, I'm falling to the danger zone All day long I'm pushed and shoved
I just can't get enough in the danger zone Red light, don't stop for no red light
You know I'm always trouble on my own
Lonely, ever so lonely
I got too much time I'm heading for the danger zone All day long I'm pushed and shoved
I just can't get enough in the danger zone I'm eager, eager to please
I can't stand no more, it's got me on my knees Ain't gonna feel no hurt
Ain't gonna feel no pain
I got nothin' left to lose
I ain't got no shame Don't try to stop me, just leave me on my own
I'm gonna live or die in the danger zone I'm living in the danger zone
In the danger zone Hard life, I'm living the hard life
I'm gonna take a chance in the danger zone
Lonely, ever so lonely
I'm gonna live or die in the danger zone Midnight, can't wait until midnight
