Metal Reigns Supreme

Sacred Steel

Comrade come prepare for war
the field of battle calling
unfold our banner time has come
our eve of victory dawningCome face our might and meet your doom
our curse of death is upon you
our axes tearing through your shield
our swords bring victoryAttack of rage
pure steel can only win
come feel the pain
where metal reigns supreme
true battle drink our blood
in honour we praise thee
metal is our glory
metal reigns supremeTake our side heading for slaughter
with power breaking through their lines
strong armies never falter to conquer
fight or you must die
