

# Daydream Vacation

## Head Like A Kite

I go to another place when I draw that smile on your face  
And it takes me on a daydream vacation  
I close my eyes and smile  
Shot in space a thousand miles  
That takes me on a daydream vacation  
Everybody's standing  
You're standing in the back row watching someone else go  
Everybody's watching  
You gotta come down now  
Gotta come along now

I go to another place when I draw that smile on your face  
And it takes me on a daydream vacation  
I held my breath and sighed as I sailed into the sky  
And it takes me on a daydream vacation  
Everybody's standing  
You're standing in the back row watching someone else go  
Everybody's watching  
You gotta come down now  
Gotta come along now

Will you see?  
Maybe someday  
Maybe someday you'll go take a chance  
Take a chance

Everybody's standing  
You're standing in the back row watching someone else go  
Everybody's watching  
You gotta come down now  
Gotta come along now  
Everyone is waiting  
They're still picking daisies  
You're still picking daisies  
Everybody's standing  
Your standing in the back row by yourself  
You know why
