Soulitude

[Overkill](#)

Life we talk of death
Each breath come closer to out
Of this I'm not afraid
Though I don't know it's all about
I don't know, I don't knowDecisions that we make
The chances that we take
Blindness we can't fake
Thought I knew but now I know
What it's like to be alone, I knowI remember here, thought it was a dream
I never thought I'd come to this
Living with the fear, now I know what it means
I never thought it'd end like thisFalling with no end
Into what I've only done to me
With messages to send
Out of what I've only done to me
Falling with no, calling with no
Crawling to the endI remember here, thought it was a dream
I never thought I'd come to this
I remember here, now I know what it means
I never thought it'd end like thisFalling with no end
Into what I've only done to me
With messages to send
Out of what I've only done to meI remember here, thought it was a dream
I never thought I'd come to this
Living with the fear, now I know what it means
I never thought it'd end like thisFalling with no, calling with no
Crawling to the end
Falling with no, calling with no
Crawling to the endI remember here, thought it was a dream
I never thought I'd come to this
Living with the fear, now I know what it means
I never thought it'd, end like thisI remember here, tought it was a dream
I never thought I'd come to this
Living with the fear, now I know what it means
I never thought it'd, end like thisI remember here
