Steven Smith

The Organ

as i was saying
i know that i'm one of the few who got
away from you
steven smith , we all lose
one look at you
and they're suddenly covered in
shrapnel too
it's true, most die in your bedroomall the time i'm getting shot
oh, barrels roll and hammers drop
come on now
grab that gun and we'll go drive
around
until there's no soundcome on
let's go
i said i am driving and i am driving
its true, i've got something for youwhen everything is quiet
the ringing in our ears will be awfully
violent
and then there will be silence
then there will be silence
