## Alexz Johnson

I feel it  
Stop, drop, roll, get up, take a crack at me  
You look at me, you look at me  
Like every other motherfucker that I've seen today  
You wanna hurt me like I've never been hurt, right now  
Feel it now, stop  
Come again now  
Feel it right now  
Show me just one thing  
To help me make the day stop moving slowly  
Show me the only thing  
That'll make you stop controlling then you'll see how  
Now give up every second for the one shot left in me  
You look at me and now you see  
How I took the real from you, fucker 'cuz you had so much to say  
You wanted me, you got me right here, right now  
Feel it now, stop, drop again now  
See it right now, I'm coming in  
Why can't you just  
Show me just one thing  
To help me make the day stop moving slowly  
Show me the only thing  
That'll make you stop controlling  
Why can't I just start over?  
It's like I'm rolling over  
Don't wanna be the one to bleed, not me  
It's like I'm mourning over the death of me, no  
It's like I'm rolling over  
Not me, not me, not me, not me  
Show me just one thing  
To help me make the day stop moving slowly  
Show me the only thing  
That'll make you stop controlling
