Lets get crazy tonight

Lets get crazy tonight

Lets get crazy tonightIm right here, all over the place like bubbles

My shine is like Americas next top model

Hands clap when Im rolling my body

Thats a seven if I was rolling the dice

I dont care, Ill be dancing upon your table

Steal your bottle and Ill suck it down to the bottom

Think that Im cute to you, just smile

What you gon do about it now?

Lets get crazy tonight

Lets get crazy tonightI dont really care what nobody think

Lets get crazy tonight

Looking all hot and spending them Gs

We are crazy alright

Wanna live wild and free [yeah yeah] heres the recipe so

Lets get crazy tonight

Lets get crazy tonight Youre right here and I know that youre looking for trouble

And I just like the fire you need to rumble

Its all good cause we all keep to party I believe

That we gon get it just fine

My Serac is on the rocks and is always double

So I could lose control, I like it baby when I stumble

Think that Im cute to you, just smile

What you gon do about it now?

Lets get crazy tonight

Lets get crazy tonightI dont really care what nobody think

Lets get crazy tonight

Looking all hot and spending them Gs

We are crazy alright

Wanna live wild and free [yeah yeah] heres the recipe so

Lets get crazy tonight

Lets get crazy tonightLets get crazy tonight

Lets get crazy tonight

Wanna live wild and free [yeah yeah] heres the recipe so

Lets get crazy tonight

Lets get crazy tonightShawty so wow, shawty got style
Doing everything to me to make me just want it now
I can see how, body keep mesmerizing on me with that beautiful smile
Checking me down

To a point to where I cant even speak no more
But needing you to know
That Im a fan

And the way you got me caught up on you tonight Ill never understand
Taking every bit of me to be so polite to be a gentleman
But I cant help to have the same ??? that youre having ???
So lets just go crazyI dont really care what nobody think

Lets get crazy tonight
Looking all hot and spending them Gs
We are crazy alright

Wanna live wild and free [yeah yeah] heres the recipe so Lets get crazy tonight

Lets get crazy tonightI dont really care what nobody think Lets get crazy tonight
