

Saint Saviour Square

China Crisis

No sense of pride, no time to care
No problem solved and no lesson learnedSaint Saviour Square
And no one I know should live there
And no one I know dare not care
No danger of work, no work to be found
No real incentive to pull this place downSaint Saviour Square
And no one I know should live there
And no one I know dare not care
Should live there and no one I know
Dare not care and no one I know
And no one I knowIdle gaze of us all
We are so far removed
This distance created
Is one we all useSaint Saviour Square
And no one I know should live there
And no one I know dare not care
Should live there and no one I know
Dare not care should live there
And no one I know dare notThe world knows no shame
As we all walk away
No hope is inspired
No progress is madeSaint Saviour Square
And no one I know should live there
And no one I know dare not care
Should live there and no one I know
Dare not care and no one
And no one I know
