

Kill Control

Skrape

Over mind exposed
Down the tube it goes
Projects my sanity
Pass the point of pain
To decrease then gain
Image of my scene I let you down for wastin' my crown
I held out your charm and took all your pride Put the rest in still
Charge my point and trip
Sucks the passion free
My distress I crave
Be submitted be brave
Precondition so I see I let you down for wastin' my crown
I held out your charm and took all your pride
I took all your pride for wastin' my crown
I held out your charm 'cause I let you down Kill it, control it
Kill it, control it
Kill it, control it
Kill it, control it I let you down for wastin' my crown
I held out your charm and took all your pride
I took all your pride for wastin' my crown
I held out my crown and I let you down
Kill it, control it
