

I Hear Your Voice

Lionel Richie

So many nights thought that I was doing fine
Thought that time had chased your picture from my mind
So many times thought my heart was finally strong
Now I find this heart of mine was so wrong
I, I thought I'd finally learned to get on with my life
Then it all comes back I hear your voice

(Call)

Your voice

(Call)

Your voice

(Call)

The way it used to do I feel my heart

(Fall)

My heart

(Fall)

I try to keep you off my mind

But every time I do, I hear your voice So many days I thought that I could love again

But any fool in love would know that's all pretend

You, you always seem to find your way

Back in my dreams and I can't break free I hear your voice

(Call)

Your voice

(Call)

Your voice

(Call)

The way it used to do I feel my heart

(Fall)

My heart

(Fall)

I try to keep you off my mind

But every time I do, I hear your voice You know I tried so many times

Just to forget you

I've tried to walk away from you

Oh girl, it's just no use I hear your voice

(Call)

Your voice

(Call)

Your voice

(Call)

Calling me, calling me the way I feel my heart

(Fall)

Oh, my heart

(Fall)

I try to keep you off my mind

But every time I do, I hear your voice

I hear your voice

I hear your voice
