Another Night In The Hills

Gavin Rossdale

Exiles and strangers living in danger
Hollywood faces can you take it to the races?
She's the devil made of coal
Sure that nobody knows
He's a gambler and a cheat
He got very small feet, he got very small feet
If there is forgiveness I haven't seen it
Don't let your friends fall to pieces
Another night in the hills
(La la la la)
On a buffet of pills
(La la la la)
True work of art is how we got his far
Exiles and strangers see black beat braces
I have twenty-six problems
I want you to have them
She likes cocaine right over my brain
She's the one to get famous
She the movers and shakers
If there is forgiveness I haven't seen it
Don't let your friends fall to pieces
Another night in the hills
(La la la la)
On a buffet of pills
(La la la la)
True work of art is how we got his far
True work of art is how we got his far
What
I used to work for the government
But I became ambivalent
I used to think that I cared
Then I got
(Jun e ju lio pan lan b quanda e she)
Another night in the hills
(La la la la)
On a buffet of pills
(La la la la)
True work of art is how we got his far
Another night in the hills

Another night in the hills
Another night in the hills
How did we get this far?
