Underground

Blue Rodeo

There's a way, I've been told
If we walk together, keeps us from this cold
On the sidewalks of these streets
Lie the broken dreams, scattered at our feetLead me on, I don't mind
I'll come forward laughing every time
All my friends, they've gone underground
Go undergroundThere's a shadow on this land
A growing darkness, cruel and senseless hand
This block won't be the same
Now the music's there, but somehow some things changedLead me on, I don't mind
I'll come forward laughing every time
All my friends they've gone undergroundI got burned, left too quick
Got myself caught outside the heart of it
All my friends they've gone
Underground, go underground, go undergroundThere's a song that I've heard
Rising up above the streets, of this crumbling world
'Bout the sadness in every day
How it leaves and takes, a bit of your faith awayLead me on, I don't mind
I'll come forward laughing every time
All my friends they've gone
UndergroundI got burned left too quick
Got myself caught outside the heart of it
All my friends they've gone underground
Go underground, go underground
